Summary

As Oracle certified enterprise architect, Sun certified Java programmer, Cloudera certified Hadoop developer, I help clients and companies to successfully architect, design, develop and deploy software projects. I do consulting in BigData, especially, Apache Spark and Cassandra, AWS, serverless applications (Python).

- > I am capable of working in a collaborative, multi-site environment to support rapid development and delivery of results and capabilities.
- > I have comprehensive experience of architecting, designing, developing and deploying architectures for software applications.
- > Experience in handling customers having global presence,
- > Build relationships with business clients through quality work deliveries.
- > Ability to interact with clients to define user requirements and application architecture.
- > Assisting Project Manager in planning, team ramp up,
- > Facilitate design / architectural discussions, estimation, status and stand up meetings,
- > Contributes to documenting design, functional specification, test cases, project risks,
- > Experience in transitioning applications from onshore to offshore,
- > Constitute a technical gateway between the project manager and the developers and business experts.

SKILLS AND TOOLS

- Apache Spark(2+ years), Apache Cassandra (2+ years), Knowledge of Apache Kafka, BigData Eco-systems
- 4+ years on AWS Services like AWS API Gateway, AWS Lambda, AWS Cognito, EC2, Beanstalk,

CodeCommit, Code Pipeline, S3, Serverless Framework, Route 53, Cloud Front, lightsail etc

- 2+ years of experience in Serverless Framework setting up the AWS for one web application and Lambda, Gateway and other services.
- Hands-on experience (2+ years) with Cassandra, CQL, data modeling, data replication, clustering, indexing forhandling for large data sets.
- Databases like MySQL, PostgreSql, Oracle, Apache Cassandra, AWS Aurora, DynamoDb
- Well versed with development toolkits like Maven, GIT, Jenkins

Experience

BigData | Spark | Cassandra | Kafka | Java | SpringBoot | AWS | Python | Consultant | Freelancer

Freelance; Self-employed IT professional; Consultant

Apr 2018 - Present (3 years +)

- Big data developer
- Live project experience in Apache Spark using Java 8 with Apache Cassandra for more than 2 years using spark cassandra connector
- 2+ years experience in managing AWS EC2, VPC, Security groups, route tables
- My experience in Apache Cassandra starts from data modeling upto database administration on production servers with 3-5 nodes in cluster of live projects.
- Successfully done data modeling for 2 Apache Cassandra based projects which are in production now

Ksolves India Limited

Jun 2016 - Mar 2018 (1 year 10 months)

- Experience in Apache Spark, Apache Cassandra
- AWS managing EC2 instances
- Hands-on experience with Cassandra, CQL, data modeling, data replication, clustering, indexing for handling for large data sets.
- Expertise in managing Cassandra Cluster using Apache Cassandra 3.9 and 3.11
- Strong experience with Java, Python with Apache Spark.
- Experience working with distributed systems, clustering, and replication technologies.
- Architecture reviews.
- Requirements analysis and design,
- Prototypes,
- Code review, code refactoring,
- Mentoring, training
- Evaluate and decide use of software products including tools, frameworks
- Performance improvement, refactoring of application(s)
- Well versed with development toolkits like Maven, GIT, Bitbucket, Continues Integration suites like Jenkins, automated deployments using Ansible, JIRA, Wiki.
- Capable of working in a collaborative, multi-site environment to support rapid development and delivery of results and capabilities
- Effectively communicating technical analyses, recommendations to project stakeholders

Enterprise Architect

Ksolves India Limited

Sep 2014 - Jun 2016 (1 year 10 months)

- Consultancy
- Architecture reviews,
- Requirements analysis.
- Design and review,
- Prototypes,
- Code review, code refactoring,
- Mentoring, training
- Evaluate, investigate and decide use of software products including tools, frameworks
- Performance analysis, refactoring of application(s)
- Decide technical road map

Software Architect

Tieto

Dec 2009 - Sep 2014 (4 years 10 months)

- Requirements analysis, architecture, design, prototypes, code review, code refactoring, mentoring, environment setup, continuous integration, trainings, demos
- Paricipating in proposal making and due diligence activities
- Evaluate, investigate and decide use of software products including tools, frameworks
- knowledge transfer from onsite to offshore, team ramp-up, setting up knowledge base, documenting project
- processes
- Conducting and arranging sessions for knowledge sharing
- Performance analysis, refactoring of application(s)

- communications with stakeholders
- technical roadmap for team

Group Lead

GeometricPLM

Nov 2008 - Dec 2009 (1 year 2 months)

Requirement analysis,

design,

prototyping,

development,

unit testing,

mentor,

customer communication,

onsite-offshore coordination,

Consultant at Cummins Inc.

Geometric Software

Sep 2007 - Nov 2008 (1 year 3 months)

Technical consultancy,

Performance analysis

prototyping,

mentor,

customer communication,

onsite-offshore coordination,

■ Consultant at QuikSilver

Geometric Software

Mar 2007 - Aug 2007 (6 months)

Technical consultancy,

implementation,

design,

unit testing

Performance analysis

customer communication,

Group Lead PLM Solutions

Geometric Software

Apr 2006 - Mar 2007 (1 year)

Requirement analysis, design, development, unit testing, mentoring, customer communication, onsite-offshore coordination

Senior Software Engineer

Geometric Software

Apr 2003 - Apr 2006 (3 years 1 month)

development, unit testing

Software Engineer

Geometric Software Aug 2000 - Mar 2003 (2 years 8 months) development, unit testing

Software Engineer

Vishwagan Infosoft Pvt. Ltd. Dec 1999 - Aug 2000 (9 months) Software implementation, unit testing

Education

CDAC

Diploma, Development of Advanced Computing 1999 - 1999

Dr Babasaheb Ambedkar University

B.E., Production Engineering 1994 - 1998

S. B. College of Science

HSC, Science, Mathematics 1992 - 1994

Gujrati vidya mandir

S.S.C., Secondary School Certificate 1984 - 1992

Licenses & Certifications

- Cloudera Certified Developer for Apache Hadoop Cloudera
- Sun Certified Java Programmer Sun Microsystem
- Brainbench certified for Java 2 Brainbench
- Oracle Certified Master, Java EE 5 Enterprise Architect Oracle

Skills

Big Data • Cassandra • Apache Spark • Web Services • Cloud Computing • Technical Analysis • SOA • Design Patterns • Integration • Agile Methodologies

Honors & Awards

Pat on the back - Tieto

Jul 2013

Received this award from my unit for my contribution to the project as a senior member. I was involved in the transition and then execution of the project. The customer satisfaction index was excellent.

Appreciation Award - Geometric

Jan 2006

For excellent team work and contribution to the project

Excellent Performing Team Award - Geometric

Jun 2004

For introducing a new productivity improvement tool, developed in house, on time with great quality
